EXAMINER'S COMMENT***Drawings***

1. The drawings were received on May 31, 2006. These drawings are not approved because:
Applicant amended only Figures 1A and 4A to indicate these figures represented "Prior Art" in response to the following objection made in the previous Office Action, which is repeated as follows:

The drawings are objected to because:

- a. Figures 1A, 1B and 4A should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). These drawings have been described in terms of a system "that can (in the future) utilize the invention", or showing "conventional" technology, and so, they do not show the present invention, they only actually show prior art -- they need to be labeled accurately.

Applicant argued in the Remarks that Figure 1B should not be labeled "Prior Art" because, quote

"the computer system illustrated in figure 1B includes a mass storage 150 that can be further depicted as shown in figure 2A"

This argument is not persuasive because Applicant's Specification "Brief Description of the Drawings" says the following about the contents of Figure 1B,

"Fig.1B depicts an abstracted representation of the general-purpose computer system of Fig. 1A"

Accordingly, since due to the Amendment, Applicant agrees the Figure 1A represents "Prior Art," then Figure 1B must logically also represent "Prior Art" and the objection to the Figures 1A, 1B and 4A is maintained.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES**Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended."

Art Unit: 2185

If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

In order to avoid ABANDONMENT of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
